

## § 641.350

(3) The State has failed to meet performance goals and must submit a corrective action plan; or

(4) There is a change in a grantee or grantees.

(b) Modifications to the State Plan are subject to the same public review and comment requirements that apply to the development of the State Plan under §§ 641.325 and 641.350.

(c) The Department will issue additional instructions for the procedures that must be followed when requesting modifications to the State Plan. (OAA sec. 503(a)(1)).

### **§ 641.350 How should public comments be solicited and collected?**

The Governor should follow established State procedures to solicit and collect public comments. The State Plan must include a description of the State's procedures and schedule for ensuring an open and inclusive planning process that provides meaningful opportunity for public comment.

### **§ 641.355 Who may comment on the State Plan?**

Any individual or organization may comment on the Plan.

### **§ 641.360 How does the State Plan relate to the equitable distribution (ED) report?**

The two documents address some of the same areas, and are prepared at different points in time. The ED report is prepared by State agencies at the beginning of each fiscal year and provides a "snapshot" of the actual distribution of all of the authorized positions within the State, grantee-by-grantee, and the optimum number of participant positions in each designated area based on the latest available Census data. It provides a basis for improving the distribution of SCSEP positions within the State. (See OAA sec. 508). The State Plan is prepared by the Governor and covers many areas in addition to equitable distribution, as discussed in § 641.325, and sets forth a proposed plan for distribution of authorized positions in the State. Any distribution or redistribution of positions made as a result of a State Plan proposal will be reflected in the subsequent year's ED report, which then forms the basis for

## 20 CFR Ch. V (4–1–08 Edition)

the proposed distribution in the next year's State Plan. This process is iterative in that it moves the authorized positions from over-served areas to underserved areas over a period of time.

### **§ 641.365 How must the equitable distribution provisions be reconciled with the provision that disruptions to current participants should be avoided?**

Governors must describe the steps that are being taken to comply with the statutory requirement to avoid disruptions in the State Plan. (OAA sec. 503(a)(6)). When there are new Census data indicating that there has been a shift in the location of the eligible population or when there is over-enrollment for any other reason, the Department recommends a gradual shift that encourages current participants in subsidized community service positions to move into unsubsidized employment to make positions available for eligible individuals in the areas where there has been an increase in the eligible population. The Department does not define disruptions to mean that participants are entitled to remain in a subsidized community service employment position indefinitely. As discussed in §§ 641.570 and 641.575, grantees may, under certain circumstances, place time limits on an SCSEP community service assignment, thus permitting positions to be transferred over time. Grantees shall not transfer positions from one geographic area to another without first notifying the State agency responsible for preparing the State Plan and equitable distribution report. Grantees must submit, in writing, any proposed changes in distribution that occur after submissions of the equitable distribution report to the Federal Project Officer for approval. All grantees are strongly encouraged to coordinate any proposed changes in position distribution with the other grantees servicing in the State, including the State project director, prior to submitting the proposed changes to their Federal Project Officer for approval.
